

XXI Century KIDS 1st FOUNDATION

“Passion for Sports ~ Compassion for Kids”

June 15, 2008

Hi Bo,

My thoughts on the presentation at MUS: It is my strong belief that every school district in California should enlist you to present the “program as presented to Montecito Union School” !!!

Your message in “The Runt of the Litter” is phenomenal – and as I watched the audience, you not only had every child engaged ... you had every parent. I was particularly drawn to the Dad’s. I watched their facial expressions and in some cases ... it almost appeared that a light bulb switched on with your message. The respect, warmth and love for your father, is a “welcome, refreshing, uplifting, and important” message to children and parents! Your direct audience participation with questions and autograph signing embellished the entire evening.

I can’t wait until you are brought back to SB in a larger facility for an entire weekend – for larger audiences to see your play, hear your message and be inspired.

You know Bo, I liked you immediately when I met you. But – WOW – you are so talented, and I don’t think you really have a clue to what degree. You’re an actor, writer and SUCH AN INSPIRATION to mankind! In spite of your talents you are a VERY humble man. It is truly an honor to be working with you! In addition, your beautiful wife was so sweet, approachable and appreciative of efforts extended to make the evening a success.

Big hugs to you both ... what a team you make together!!

Helen Jepsen
